

Meeting Notes

For Meeting of March 16, 2005

Next Meeting: 9:00 AM, Wednesday, April 20, 2005

Administrative Meeting Tasks

Specific Meeting Issues

Developments

Standards

Departmental Updates

Environmental Services Department's surveying monument data, that is presently available, was viewed through the website <http://benchmark.jccal.org/Benchmarks>. The Benchmarks site allows ES to view the data for quality checks and communicate with other engineers about quality checks as well.

ES has finished collecting the section corner data. They are now going one Township at a time to check the data using the Benckmarks website. As TWP 01 is released ES will proceed to check TWP 02. ES also has a disclaimer on the accuracy of the data so they will not be liable if given out by other departments, intentionally or accidentally, used in court for land disputes, or any use other than tax map graphic use only. ES asks for each of the departments help in ensuring this.
