

Meeting Notes

For Meeting of Monday, January 30, 2006

Next Meeting: Wednesday, February 15, 2006

Administrative Meeting Tasks

Specific Meeting Issues

Developments

First ESRI User Group Meeting of 2006! We will be meeting at the Alabama Power Auditorium at 600 18th Street North in Birmingham.

This is a very important meeting, as we will be discussing:

- The Alabama GIS Portal implementations at the State EMA and the Geological Survey of Alabama. We are the first state in the nation to implement this technology, and you should be aware of what it means to you and your organization.
- What's New in ArcGIS 9.2. There are numerous enhancements that will be in ArcGIS 9.2, especially in terms of data management. We will go into detail on several of these key enhancements with live demos.
- ArcGIS Server. Many sites within Alabama are starting to embrace ArcGIS Server technology. Find out what ArcGIS Server can do, and how it can work within your enterprise system.
- The Southeast Regional User Group Meeting. SERUG will be taking place from April 26-28. We will give you a preview of what we'll be covering there, and show how to register.
